

# Know The **Culex** Mosquito!

Did you know that there are different kinds of mosquitoes in our neighborhood?

**Trace** the name of the *Culex* mosquito.

**Adult *Culex* Mosquito**

Culex

Pronounced: [Kyoo, Lex]

*Culex* eggs are laid together in a raft form wherever stagnant water is trapped. The egg raft floats on the surface of water.

As flying adults, *Culex* mosquitoes have light tan stripes on a brown body background.
