

# Aedes 101

## What are Aedes Mosquitoes?

*Aedes* mosquitoes are small, black-and-white insects.

**Nickname:** Ankle Biters

## What do Aedes do?

Adult mommy *Aedes* suck blood and can spread bad germs that make people sick.

## Where do Aedes live?

*Aedes* mosquitoes like to hang out in cool and shady yards that have lots of plants. Adult *Aedes* do not like the hot sun or strong winds. Baby *Aedes* live in water.

Does your home have shady areas with plants for me to hide in?
